

Weekly Activity and Progress Report – CS 442 Group 4 for Week 8

Group Members: Kathleen Melonashi, Olivia Guzik, Solomon Jones, Adam Shaar

Weekly In-Person Review Meeting

- When: 12:00 P.M. - 1:50 P.M. on 2/28/2024
- Where: UIC Richard Daley Library
- Missing (why) :
- Late (why) :

Recent Progress

- Olivia Guzik:
 - Successfully created the first puzzle of the game, involving logic and sequence solving to unlock a new area of the ship.
- Solomon Jones:
 - Implemented functionality for using items from the inventory to interact with objects in the game world, enhancing gameplay dynamics.
- Adam Shaar:
 - Resolved lighting issues within the ship, providing a more realistic experience.
 - Developed additional game assets for future levels, using a combination of AI and Photoshop.
- Kathleen Melonashi:
 - Completed the introductory scene, setting the narrative context for the player and explaining the backstory of how the player arrived on the ship.
 - Assisted in designing and implementing the first puzzle, contributing to its complexity and integration into the game narrative.

Current Action Items (Work In Progress)

- Olivia Guzik:
 - Begin designing the second puzzle, focusing on increasing difficulty and integrating it seamlessly with the game's storyline.
- Solomon Jones:
 - Work on a system to track player achievements within the game, adding depth to the gameplay and encouraging exploration.
- Adam Shaar:
 - Start researching ambient sounds and music tracks to enhance the game's atmosphere and immersion.
- Kathleen Melonashi:
 - Design additional interactive elements for the ship, including puzzles that require physical manipulation of the game environment.
 - Collaborate with Adam on integrating ambient sounds within the game scenes for a richer player experience.
